Adobe InDesign	GIMP

EDUCATION

Lambda School · 2021
Full Stack Web Developer

Hillsborough Community College · 2016
Focus in English and Creative Writing

VOLUNTEERING

Municipal Liaison · 2018-current
National Novel Writing Month

Organized events both online and in-person throughout November for writers in the Tampa/Brandon region to foster networking through a mutual writing endeavor. Regular attendees built friendships and peer review groups that continued year-long.

SPEAKING ENGAGEMENTS

InbeonCon · August 28-29, 2021
Panelist

Topics: The Writer's Room, Fundamentals to Designing a Website, Creatives and Mental Health

Spooky Empire · October 2017, 2018, 2019
Moderator, Panelist

Topics: Choose Your Own Adventure, Horror in Four Colors: Horror Comics, NaNoWriMo Meetup, Pen Through Paper: Writing and Publishing 101, Please Delete My Browser History, Sick and Twisted, What We're Gonna Do To THAT Guy, Writing For All Mediums

PROJECT MANAGEMENT EXPERIENCE

Software Engineer Intern · GiveCampus | Washington, DC · 2021
- Converted functional components in Ruby/Rails for React/Rails using Jest/Cypress to test Rails components
- Compared current code implementation to similar choices in React for best 1-to-1 results
- Established a task board with three teammates to assign tasks to efficiently complete components
- Presented 4 libraries to senior devs to implement similar design in React components that were used in the Ruby/Rails components

Copywriter and Book Designer · Upwork | Freelance · 2020-2021
- Designed and formatted 25+ books and e-pubs using HTML/CSS for indie authors to sell on a variety of platforms, including Amazon, Barnes and Noble, and iBooks
- Cold emailed 200+ fathers of celebrities and other successful people for a bi-weekly podcast on raising children, successfully booking 12 guests
- Researched and wrote 9 articles for a geek-themed website attracting 600+ views

Field Supervisor · Aftermath Services LLC | Oswego, IL · 2016-2017
- Managed a team focused on biohazard cleanup, ensuring safety compliance and quality
- Educated current and prospective clients on remediation and scope of work to guarantee satisfaction

PROJECTS

Spooky Empire Creator's Track 🔗 www.spookycreators.com
- Adapted a concept using Excel spreadsheets to create and schedule guests at a convention, allowing the organizer to keep track of the current year as well as review the previous years' guests and panels
- Deployed the app using Heroku and Vercel with a public-facing page for convention attendees to view either the current schedule or an FAQ on how to request guest status
- Designed and implemented endpoints that limit visibility and usability depending on user type

Frontend Repo: https://github.com/bukit3point0/spooky-empire-client

Backend Repo: https://github.com/bukit3point0/spooky-empire-creators-track-api

Robert Gainey, Author 🔗 www.robertgainey.com
- Deployed a static site with Vercel that allows the author to announce new publications, sell current works, and connect with fans
- Communicated with the author to ensure a fully-functional website to specifications
- Designed the site to be easily updated for future releases

Human Rights First: Asylum
- Led a team of 14 as the project manager, helping with blockers, leading standups, plannings sprints, and pair-coding with teammates
- Collaborated with stakeholders to create a site for attorneys to prepare cases for asylum seekers, gathering data on previous cases their assigned judge has reviewed
- Discovered potential security problems, resolving the issues in the backend
