CONNIE REYNOLDS
FULL STACK WEB DEVELOPER
www.conniereynolds.dev

TECHNICAL SKILLS

Adobe InDesign	React
Bootstrap	Redux
GIMP	Wireframing
HTML/CSS	Node
Javascript	Python

EDUCATION

Lambda School — 2021
Full Stack Web Developer

- Skills upon completion: HTML, CSS, Bootstrap, React, Redux, and Node

Hillsborough Community College — 2015-2016
Focus in English and Creative Writing

VOLUNTEERING

Municipal Liaison — 2018-current
National Novel Writing Month

- Organized events both online and in-person throughout November for writers in the Tampa/Brandon region to foster networking through a mutual writing endeavor. Regular attendees built friendships and peer review groups that continued year-long.

PROJECTS

Robert Gainey, Author
A static site created to allow the author to announce new publications, sell current works, and have fans connect with/contact the author on social media.

- Built with React; formsubmit.co used to create a simple submission form
- Communicated with the author to ensure a fully-functional website to specifications
- Designed the site to be easily updated for future releases

Water My Plants
An application for plant lovers to keep track of their plants and their watering schedule.

- Built with React, Node, and Heroku
- Coordinated with a team of three frontend developers to ensure useful endpoints and create a complete site
- Designed and implemented endpoints as the backend developer

Repo: https://github.com/FT-Water-My-Plants-3

African Marketplace
A website created for multiple East African countries to sell their market wares in all participating countries. Created using React, Redux, Java, and Heroku. Served as a frontend developer designing and implementing features

- Built with React, Redux, Java, and Heroku
- Coordinated with six developers to implement all client required feature requests
- Created a wireframe and designed portions of the site as a frontend developer

Repo: https://github.com/tt72-AfricanMarket

EMPLOYMENT

Copywriter and Book Designer — 2020-2021
Freelance, Upwork

- Researched and wrote articles for a start-up geek-themed website attracting hundreds of views
- Designed and formatted books and e-pubs for indie authors to sell on a variety of platforms

Field Supervisor — 2016-2017
Aftermath Services LLC, Oswego, IL

- Managed a team focused on biohazard cleanup and rapid response, ensuring safety compliance and quality standards
- Educated current and prospective clients on the remediation process and scope of work to guarantee satisfaction

Barber — 2013-2020
All Pro Barbers, Brandon, FL

- Established a strong clientele relationship to generate long-term business, building loyalty to the shop
- Focused on client satisfaction, producing quality and professional styles based on client needs
